

Technical Specification Sheet

# Multi-Clad

A popular choice for installing horizontal and vertical wall panels as well as roof panels, OKTOPUS® Multi-Clad comes with the flexibility of 5 configurations to suit varying panel length and shape.

As a single device the Multi-Clad can lift horizontal wall panels of up to 12m in length, vertical panels of up to 18m and roof panels of up to 8m.

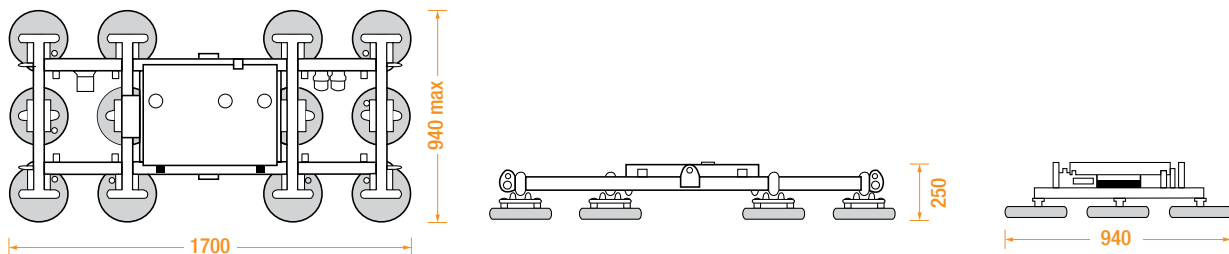

Designed for use as a mini crane attachment, the Multi-Clad lifter has its own power which means there are no cords to deal with during installation. The lifter is operated using a control panel directly on the device.

## Technical Specifications

<b>Typical application</b>	Installation of sandwich panels in industrial, commercial and cold store construction
<b>The building panels to be processed</b>	<ul style="list-style-type: none"> <li>- must be non-porous on the lifting surface</li> <li>- have a clean surface</li> <li>- may not be covered by a protective film</li> </ul>
<b>Maximum panel lengths</b>	<ul style="list-style-type: none"> <li>- horizontal: up to 12 metres</li> <li>- vertical: up to 18 metres</li> <li>- roof: up to 8 metres</li> <li>- ceiling: n/a</li> </ul>
<b>Safe working load</b>	Up to 400kg Depending on type and number of pads
<b>Rotation</b>	None
<b>Tilt</b>	90°
<b>Weight of device</b>	Approximately 130kg
<b>Control options</b>	Local, optional cable or remote
<b>Power supply</b>	24V Rechargeable Battery
<b>Battery recharge time</b>	4-6 hours
<b>Battery life</b>	10 hours
<b>Vacuum production</b>	2 diaphragm type vacuum pumps
<b>Vacuum pads</b>	Round Cups (ø 250mm) Oval Pads (100 x 320mm)
<b>Optional accessories</b>	<ul style="list-style-type: none"> <li>- Cable Suspension Gear KT-B</li> <li>- Chain Suspension Gear KT-B</li> <li>- Secondary Safety Belts</li> </ul>
